**Importance:** High

Deb, below is a draft email for you to send to the State Directors. Please let me know if you need anything else.

Colleagues,

On September 14, 2018, we discussed EPA's National Program Guidance development and your top priorities. We combined your suggestions with the suggestions submitted by your program directors into the attached spreadsheet. Our intent is to submit your suggestions to EPA Headquarters for consideration into the development of the 2020-2022 National Program Guidance. Please take this opportunity to review the consolidated information and make changes or additions to the information. For ease of use, the suggestions are organized by state. The comments that apply to all Region 8 states were collected during on 9/14 call. I encourage you to take a closer look at these. Additional specifics or information on these would be helpful. Please highlight changes made within the document or you can email your changes to me directly.

**Comments or changes are requested by Thursday November 1, 2018.**

If you have any questions please contact me or [Doug Benevento](#), (303) 312-6532.

Thank you for your continued engagement in this process.

Deb Thomas
